EDUCATION

Delhi Technological University <i>Bachelors of Technology in Engineering Physics; CGPA: 8.094</i>	New Delhi, India Aug. 2023 – Jul. 2027
DL DAV Model School <i>CBSE Class XII; Total Percentage: 89.6</i>	New Delhi, India Apr. 2022 – Mar. 2023
DL DAV Model School <i>CBSE Class X; Total Percentage: 89.0</i>	New Delhi, India Apr. 2020 – Mar. 2021

EXPERIENCE

UI/UX Designer <i>Garg Defence & Aerospace</i>	Sept 2024 – Feb 2025 New Delhi, India
- Created 30+ digital assets (posters, brochures, UI screens) for defense and aerospace clients. - Built a Figma design system, improving team efficiency by 40%. - Supported stakeholders in gathering and clarifying design requirements to deliver assets on time.	

PROJECTS

Langgraph AI Chatbot <i>Python, LangGraph, Gemini</i>	GitHub
Architected a stateful LangGraph agent, using a cyclical graph to intelligently route tasks between an LLM and various tools for multi-step problem-solving. Grounded a Gemini LLM with real-world data by developing 3 tools to connect it with live APIs, web search, and computational logic. - Developed a scalable chat interface with streaming responses and persistent sessions, supporting 100+ concurrent conversations in a ChatGPT-like experience.	
MediRAG <i>Python, Langchain, RAG</i>	GitHub
Developed a high-precision Medical RAG application, utilizing BioClinicalBERT and Cross-Encoders to maximize context relevance and improve the reliability of medical advice. - Reduced model hallucinations by deploying a custom LangChain workflow powered by Gemini 2.5 Flash, creating a trustworthy system for processing technical medical literature. - Enhanced system scalability and efficiency through optimized document processing and persistent ChromaDB storage, enabling real-time information retrieval from knowledge bases.	

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, HTML, CSS
Frameworks: FastAPI, PyTorch, Scikit-Learn, LangChain, LangGraph, RAGs, Agents
Technologies: Machine Learning, Deep Learning, NLP, LLMs, Generative AI, Agentic AI
Certificates: Intro to Machine Learning on Kaggle, Intermediate Machine Learning on Kaggle

POSITION OF RESPONSIBILITY

CS & Design Coordinator, IEEE DTU	Jun. 2025 – Present
Co-Head, Technical Council DTU	Feb. 2025 – Present
Content Manager, Fresources DTU	Mar. 2024 – Present

ACHIEVEMENTS AND EXTRA CURRICULAR ACTIVITIES

- Grand Finalist** at **Smart India Hackathon 2025**, for building an AI-powered real-time CCTV analytics system with anomaly and violence detection.
- Grand Finalist** at **Google GenAI Exchange Hackathon 2025**, for the problem statement of AI Powered Tool for combating Misinformation.
- Finalist** at **PackEdge IIT Bombay**, for redesigning chair packaging focused on logistics efficiency and operational optimization.
